

# Beardslee Public House

John Howie Restaurants Limited  
Bothell, WA

*"The Snowsound tiles have made a huge improvement in my restaurant!"*

- Chef/Owner John Howie

*"The investment we made by installing the Snowsound panels several months after we initially opened has made a very significant improvement in the environment itself, the overall quality of the dining experience our guests have enjoyed and noted in their numerous on-line reviews as well as the quality of the work environment for our staff."*

- Douglas Kawasaki, John Howie Restaurants Ltd General Manager

*"Before we installed the Snowsound panels my staff and my ears would be ringing by the end of the day – most times I would leave at the end of the day with a migraine headache! Now, none of us have any of these experiences – plus noise has not been brought up by any of our guests – which is huge for us!"*

- Erik Agnew, General Manager Beardslee Public House

Snowsound Mitesco 63" X 17.5" panels were used with a 3" ceiling mount kit and matching covers. Colors are Carrot Orange for the Main Dining Room and Black for the Private Dining Room and Bar areas. Installation was completed January 2016.
